PROFESSIONAL SUMMARY

Computer Science undergraduate at NSBM Green University with hands-on experience in full-stack web development, backend development, database management, and UI/UX design. Experienced in developing academic and personal projects using Java, Spring Boot, React, C#, ASP.NET Core, PHP, MySQL, PostgreSQL, and modern web technologies. Familiar with REST API development, authentication, role-based access control, database integration, and responsive web design. Experienced in using Git and GitHub for version control and collaborating on team-based software projects. Passionate about software engineering, web application development, and UI/UX design, with strong problem-solving, teamwork, communication, and continuous learning skills.

EDUCATION

BSc (Hons) Computer Science | 2025 - Present

NSBM Green University, Sri Lanka

TECHNICAL SKILLS

Programming Languages: Java, C#, Python, JavaScript, PHP

Frontend: HTML, CSS, JavaScript, React

Backend: Spring Boot, ASP.NET Core, PHP, REST APIs

Databases: MySQL, MariaDB, PostgreSQL

UI/UX: Figma, Wireframing, Prototyping, Responsive Web Design

Tools: Git, GitHub, IntelliJ IDEA, Visual Studio, VS Code, Postman, XAMPP

PROJECTS

NexHire - AI-Powered Recruitment & Talent Management Platform

Technologies: C#, ASP.NET Core, React, PostgreSQL, Entity Framework Core, REST APIs

- Contributed to a full-stack recruitment platform supporting candidates, recruiters, jobs, applications, and interviews.
- Developed the Admin Dashboard & Analytics for monitoring users and platform activities.
- Implemented user management, role management, and administrative workflows using backend APIs.

Campus Issue Reporting & Tracking System

Technologies: Java, Spring Boot, MySQL, JWT, REST APIs

- Developed a web application that allows students to submit, manage, and track campus-related issues.
- Implemented secure authentication, role-based access, OTP verification, and password reset functionality.
- Added image uploads, email notifications, and issue status management for students and administrators.

Avenza Studio Website

Technologies: HTML, CSS, JavaScript, Supabase

- Designed and developed a responsive website for a photography and framing studio.
- Built Home, About, Services, Gallery, Pricing, and Contact pages with mobile-responsive navigation.
- Integrated Supabase for dynamic content and implemented interactive gallery filtering and image viewing features.

Restaurant Booking Management System

Technologies: PHP, MySQL, HTML, CSS, JavaScript

- Developed a web-based restaurant reservation system with customer booking and table selection functionality.
- Built an admin dashboard for viewing, managing, updating, and tracking customer reservations.
- Integrated MySQL for bookings, customer reviews, menu information, and booking status management.
